

Jasper Technologies International, Inc

WORLD-CLASS TURBINE, GENERATOR & COMPRESSOR PARTS & SERVICES

Jasper Technologies International connects their clients with the right solution for their generating equipment; quickly and cost effectively. Whether its parts or engineering services we use our decades of international experience and knowledge of the worldwide marketplace to meet your turbine, generator, and compressor needs. JTI provides unparalleled technical support and response times. Direct communication with technical experts to enable JTI's clients to run as reliably and efficiently as possible. Please let us serve you with our winning formula and world class solutions!

INDUSTRIES SERVED

- Utility Fossil and Nuclear
- Oil and Gas refining and PetroChemical
- Industrial-Paper, Steel, Mining, Food
- Waste to Energy
- Combined Cycle
- Biomass
- Combined Heat and Power
- Turbine Services Companies
- EPC Contractors and Architect Engineers

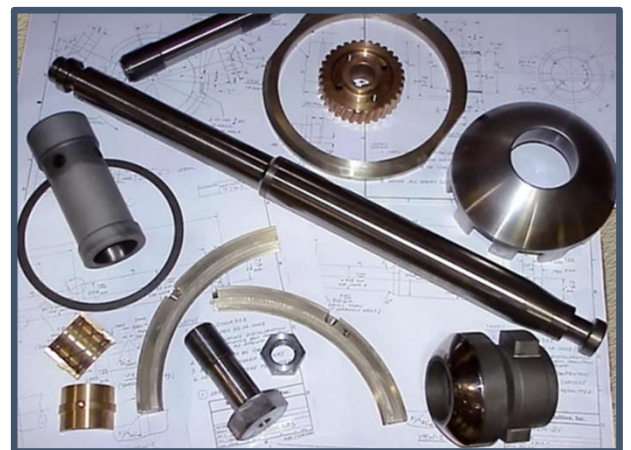

EQUIPMENT SERVED

- **All OEM's**
- Steam Turbines
- Gas Turbines
- Generators
- Compressors
- Hydro Turbines
- Much More!

STEAM TURBINE PARTS

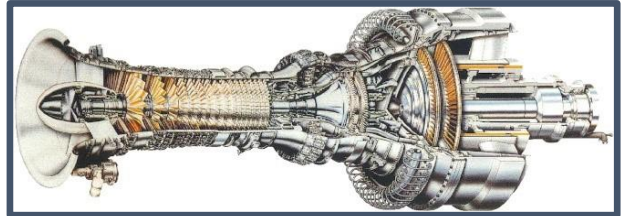

- Packing and Seals
- Control and Stop Valve Components
- Bearings, Oil Seals and Deflectors
- Blades, Diaphragms and Nozzles
- Casing Hardware, Studs, Nuts and Bolts
- Auxiliary System Parts
- Consumables
- Nearly Every Part Needed for Maintenance

GAS TURBINE PARTS

- Combustion Parts and Fuel Nozzles
- Hot Gas Path and Compressor Section Parts
- Blades and Nozzles
- Hardware, Studs, Nuts and Bolts
- Auxiliary System Parts
- Consumables
- Nearly Every Part Needed for Maintenance

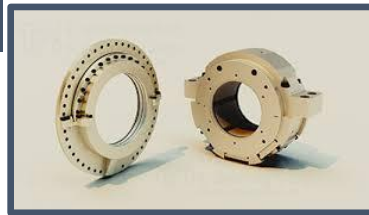

COMPRESSORS

- Impellers
- Diaphragms
- Bearings and Seals
- Casing hardware bolts studs and nuts
- Consumables

GENERATORS

- Bearings, Oil, and Air Deflectors
- Hydrogen Gas and Air Side Seals
- Coolers and Hardware
- Hardware, Insulated bolts, end shield bolting
- Consumables

SURPLUS EQUIPMENT EXPERTS

- Surplus unused and used Steam Turbines, Gas Turbines and Generators
- Up to date inventory of worldwide units available
- In house steam turbine application engineering for sizing and fit
- Complete power plants, boilers, condensers, plant and turbine controls, pumps and motors, breakers, switchgear, transformers and more!
